Verify

3

- Scan QR Code with phone.
- Make sure “in” for inches is selected as Unit Choice
- Enter Width, Length, and Height from your measurements

4

5

Redirect

- Remove from system and redirect for delivery by package driver IF:
 - More than 10 lbs. OR
 - Calculation is more than 2.00 cubic feet

National Master Agreement Article 26, Section 4(4).

“If a driver or inside employee identifies a package designated for Surepost that is clearly more than ten (10) pounds and/or larger than two (2) cubic feet, the package shall be removed from the system and redirected for delivery by a package driver unless the Employer cannot deliver to the specified address. The Employer shall ensure its employees are made aware of the opportunity to redirect packages in excess of the limits set forth in this Section. The Company will maintain an Exception Resolution Application to ensure that, once a package is identified, a clerk shall redirect the package(s) to the appropriate package driver. **No employee shall be disciplined for redirecting a package pursuant to this paragraph.**”
